## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1, 3, 8, 9, 12, 16, 17 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Bernd (EP 95,548 A2). Bernd discloses a bicycle carrier having a vertical supporting member (6), a horizontal upper bar (1) attached to said supporting member, a cradle (a portion of the distal end of 1) fixed to the upper bar, having first and second structures (2) extending upwardly from the cradle, having first through fourth tines, the cradle capable of supporting the fork crown and handlebars at an angle other than perpendicular to the bicycle. Bernd further discloses the supporting member having means for attaching to a vehicle hitch, a stabilizer bar (the horizontal part of 6) attached to the supporting member below the upper bar.

2. Claims 1, 3-5, 8, 9, 11-13, 16-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Shaver (US 5,996,870). Shaver discloses a bicycle carrier having a vertical supporting member (28), a horizontal upper bar (32) attached to said supporting member, a cradle (40) fixed to the upper bar, having first and second structures (42) extending upwardly from the cradle (See Fig 8), having first through fourth tines (38), the cradle capable of supporting the fork crown and handlebars at an angle other than

Art Unit: 3782

perpendicular to the bicycle. Shaver further discloses the supporting member having means for attaching to a vehicle hitch, a stabilizer bar (the horizontal part of 6) attached to the supporting member below the upper bar.

Shaver further discloses a plurality of cradles mounted on the upper bar for receiving a plurality of bicycles (Fig 3) as well as a second bar (34) with means (96) for securing a bicycle rear wheel. Shaver also discloses the horizontal upper bar (32) being mounted generally perpendicular to the rear of the vehicle.

With regards to claim 19, the cradle (when viewed with the structures) is mounted at an angle of approximately 45 degrees to the axis of the upper bar.

### ***Response to Arguments***

3. Applicant's arguments with respect to claims 1, 8, 19 and 22 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 3782

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
